

New PCT National Phase Application  
Docket No. 32860-000898/US

**ABSTRACT OF THE DISCLOSURE**

The modules for the coach body are divided into module sections and individual pre-assembled sub-assemblies, whereby the modules are produced by joining the individual pre-assembled sub-assemblies to provide module sections and by subsequent joining of the module sections. The joining of the individual pre-assembled sub-assemblies to provide module sections or modules, the joining of the module sections to provide modules and the joining of modules to provide the complete coach body is carried out by cold joining with rapid connector elements (e.g. cold mountable connection elements) and/or specially produced connector components.
